

Meals on Wheels Awareness Raising Aids

Resources developed by University of Bristol researchers to raise awareness of Meals on Wheels services

These resources developed by University of Bristol researchers to raise awareness of Meals on Wheels services include:

- One infographic ('Meals on Wheels – is this for you?'), which can be used by general practitioners, hospital-based clinicians, and social and community carers and workers, as a resource to inform referral decisions to Meals on Wheels services. It can also be used

by Meals on Wheels providers as a resource to raise awareness of their services on their websites and publicity materials. Different versions of this infographic are available for England, Wales, Scotland and Northern Ireland.

- One infographic ('The significance of Meals on Wheels') which highlights the benefits of Meals on Wheels services to users of the service and their families. This resource can be used by Meals on Wheels providers when they seek funding for the continuation or enhancement of their services. It can also be used by commissioners and policy makers as a resource to inform decisions about reviving or reintroducing Meals on Wheels. Also available in Welsh.
- One short film about Meals on Wheels (Welsh subtitles available).
- A policy briefing that will accompany the infographics (also in Welsh).
